

Prof. Dr. Dominique Bohrmann - Publikationen

Bohrmann, Dominique; Gobbert, Moritz; Hoelzchen, Ericson et al.

FlexiTeams – An Interactive Visual Representation of AI-based Knowledge to Reorganize Operational Teams in Crises

AHFE International. Artificial Intelligence, Social Computing and Wearable Technologies: AHFE International 2023 S. 195 - 204

Bohrmann, Dominique; Bruder, Anna; Bengler, Klaus

Effects of Dynamic Visual Stimuli on the Development of Carsickness in Real Driving

IEEE Transactions on Intelligent Transportation Systems. Bd. 23. H. 5. Institute of Electrical and Electronics Engineers (IEEE) 2022 S. 4833 - 4842

Bohrmann, D.; Just, W.; Maier, C. et al.

Ergonomie 2.0 – Das Fahrzeug als neuer Lebensraum

Humanschwingungen 2020. VDI Verlag 2020 S. 53 - 62

Bohrmann, Dominique

Probandenstudie - Vom Fahrer zum Passagier

ATZextra. Bd. 24. H. S1. Springer Science and Business Media LLC 2019 S. 36 - 39

Bohrmann, Dominique; Bengler, Klaus

Reclined Posture for Enabling Autonomous Driving

Advances in Intelligent Systems and Computing. Springer International Publishing 2019 S. 169 - 175

Schulze Schwering, M.; Kumar, N.; Bohrmann, D. et al.

Refractive errors, visual impairment, and the use of low-vision devices in albinism in Malawi

Graefes Archive for Clinical and Experimental Ophthalmology. Bd. 253. H. 4. Springer Science and Business Media LLC 2015 S. 655 - 661
